

## BSPR Autumn 2005 Newsletter

Dear Colleague,

The **November BSPR** draws closer. The date is Friday 4<sup>th</sup> November. Stephanie has recently sent out registration forms. Contact her at [Stephanie.Mackenzie@luht.scot.nhs.uk](mailto:Stephanie.Mackenzie@luht.scot.nhs.uk) if you missed out. Accommodation suggestions attached.

**Vacancy on the Executive.** We are very sorry to lose Sarah Horton from the Executive committee after such a short term. There is therefore a vacancy on the committee for a member with a minority of sessions in paediatric radiology. *Nominations in writing (email will do) from proposer and seconder to me please ([i.kenney@bspr.org.uk](mailto:i.kenney@bspr.org.uk) or X-ray Dept. Royal Alexandra Hospital, Dyke Road, Brighton, BN1 3JN) by Friday 29<sup>th</sup> October.*

**Clinical Excellence Awards.** The committee is able to support worthy members in their quest for recognition. If you think you deserve support send a CV form (available on the DOH web site) to Karl Johnson at [karl.johnson@bch.nhs.uk](mailto:karl.johnson@bch.nhs.uk) Please read all the relevant guidance. These forms must be submitted by email.

**Web Site** Andrew Watt ([andrew.watt@yorkhill.scot.nhs.uk](mailto:andrew.watt@yorkhill.scot.nhs.uk)) would still like to hear from anyone interested in helping redesign the web site.

**BSPR Details Update.** To my surprise, 97 members haven't bothered to respond to my request to update/check the BSPR details. We have 189 members so that's more than half. If you are one of those I've included another details form and I'd really appreciate it if you would fill it in and send it back to me (address on the form). It should only take a minute.

**BSPR accounts.** I may be hassling some of you about your direct debits later this or early next year. Many are staggered throughout the year and I can't identify some of them. All of which makes it very difficult to manage the Society's accounts.

**Validating the Case Archive.** Would you like to be involved in the Royal College's Training Initiative? We need someone who can check that submitted cases are adequate and representative for teaching purposes. This shouldn't be too onerous and might be quite fun. Please email me or Karl Johnson if you're interested.
